

SNEHA SHARMA

Machine Learning Engineer | M.Tech Computer Science (ML Intelligence)

PES University, Bengaluru | Bangalore, India

+91-7583060525 | sneha272003@gmail.com | [GitHub Profile](#) | [LinkedIn Profile](#)

PROFESSIONAL SUMMARY

Machine Learning Engineer and M.Tech Computer Science (Machine Intelligence) postgraduate with hands-on experience in Machine Learning, NLP, Data Preprocessing, Model Training, and full-stack development using **Python, Flask, REST APIs and Scikit-learn**. Built AI/ML applications for text classification, sentiment analysis, and priority prediction, achieving up to **92.3% classification** and **91% priority-prediction** accuracy. Strong foundation in Data Structures, DBMS, Operating Systems, and Computer Networks.

EDUCATION

PES University, Bengaluru, Karnataka, India
Master of Technology in Computer Science

2025 – Present
CGPA: 8.14

ITM University, Gwalior, Madhya Pradesh, India
Bachelor of Technology in Computer Science

2021 – 2025
CGPA: 7.7

TECHNICAL SKILLS

Programming Languages: Python, C++, SQL, JavaScript

Machine Learning: Machine Learning, NLP, **Generative AI**, Text Classification, **Sentiment Analysis**, Data Preprocessing, Feature Engineering, Model Training, Model Evaluation

Libraries & Frameworks: NumPy, Pandas, Matplotlib, Scikit-learn, Flask, **React.js**, Node.js, Express.js

Web & APIs: HTML, CSS, JavaScript, REST API, RESTful Services

Databases: MongoDB, SQL

Core CS Concepts: Data Structures, DBMS, Operating Systems, **Computer Networks**, Software Development

Tools & Platforms: Git, **GitHub**, VS Code, Jupyter Notebook, **Salesforce CRM**

PERSONAL PROJECTS

Patient Complaint Management & Analytics System

Tech Stack: Python, Scikit-learn, NLTK, TF-IDF, Logistic Regression, Random Forest, VADER, Flask, Pandas, Matplotlib

- Built a Flask-based **AI/ML healthcare** complaint system covering classification, priority prediction, sentiment analysis, and emergency detection.
- Reached **92.3% classification accuracy** with **TF-IDF + Logistic Regression** and **91% priority-prediction accuracy** with Random Forest; integrated VADER, Pandas, and Matplotlib for real-time processing.

Twitter Sentiment Analysis

Tech Stack: Python, NLP, Scikit-learn, Logistic Regression, Linear SVC, Matplotlib

- Trained and evaluated machine learning models on a large corpus of tweets, applying **NLP techniques** to classify text across multiple emotional categories.
- Applied data preprocessing and **feature engineering** on real-world text data, achieving **88% classification accuracy**.

AI Agentic Code Review & Static Analysis Assistant

Tech Stack: Python, Streamlit, AST, Static Analysis, RAG, GitHub Integration

- Built a **multi-language code** review pipeline covering bug detection, security checks, AST structure analysis, and improvement recommendations.
- Added **RAG-based coding**-standards lookup, GitHub repository analysis, auto-fix recommendations, and language/complexity detection.

MERN Food Donation & Distribution Platform

Tech Stack: MongoDB, Express.js, React.js, Node.js, REST API

- Built a **full-stack MERN** application connecting food donors with NGOs, with **RESTful API** endpoints and role-based authentication for secure access and data management.

EXPERIENCE

Salesforce CRM & Automation Intern, Reflex Solution

Aug 2024 – Sep 2024

- Configured and customized a Salesforce CRM using **Objects, Fields, Relationships, Apex, and Workflow Automation** to streamline business operations.
- Designed and generated **dashboards and analytical reports** to monitor business activities and provide actionable customer insights.

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

- GDSC Technical Session Facilitator** — delivered **coding** and technical sessions for junior students and supported peer learning.
- Secured **1st** position in **state-level dance** competitions and **2nd** position in **school-level debate** competitions, demonstrating strong communication skills.
- Collaborated with peers in **technical discussions**, presentations, and group activities across competitive learning environments.

CERTIFICATIONS & ACHIEVEMENTS

- AWS Cloud Foundations
- Salesforce **Administration and Developer** Virtual Internship
- Amazon ML Challenge**: Participated in a competitive machine learning challenge environment.
- Technical Writing Intern, Learnbay**: Researched emerging technologies and translated complex technical concepts into clear, developer-friendly learning content.
